**Student Teaching Practicum
Weekly Reflection #5**

Teachers should understand and use a variety of instructional techniques that encourage students' development of critical thinking, problem solving and performance skills.

Summary:

1. *Summarize your teaching experiences during the past week.*

Knowledge:

2. *Describe how your lesson plans demonstrate instructional techniques that encourage critical thinking, problem solving and performance skills.*

Performance:

3. *Was there a particular lesson that you taught this week that successfully engaged your students in critical thinking, problem solving and/or skill development? What challenges did you face?*

Disposition:

4. *How important do you think it is for teachers to create lessons that challenge their students' critical thinking, problem solving and performance skills?*

5. *Write one goal for yourself in regard to improving the way that you teach and promoting greater critical thinking, problem solving and performance skills.*
