

FALL 2017 COURSE

Biophysics of Neurological Systems (PHY 380A80)

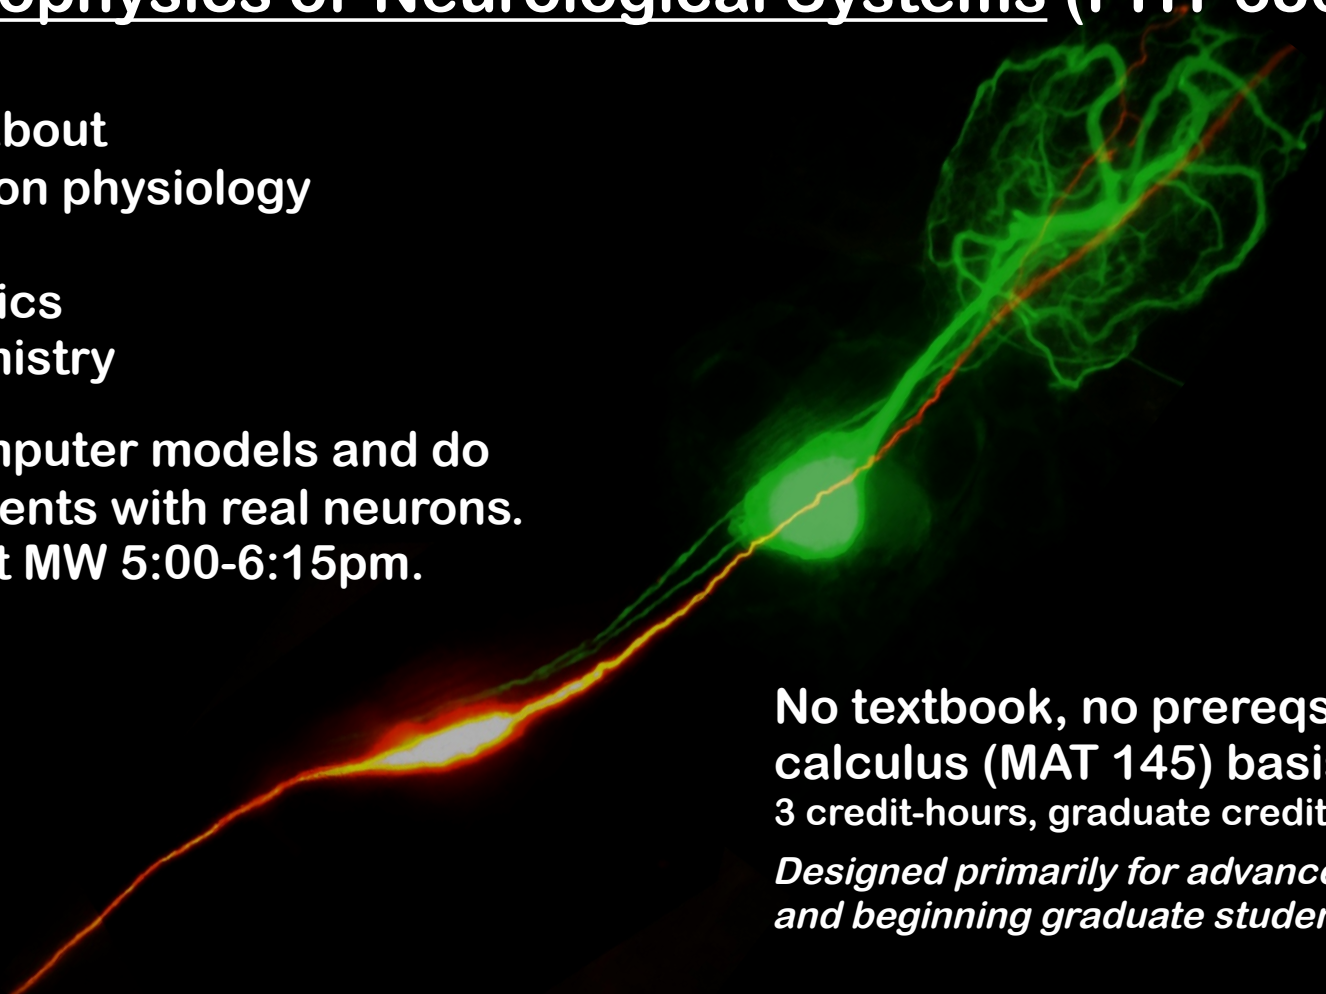

Learn about

- neuron physiology
- math
- physics
- chemistry

Use computer models and do experiments with real neurons.
We meet MW 5:00-6:15pm.

No textbook, no prereqs, but strong calculus (MAT 145) basis is desirable
3 credit-hours, graduate credit possible

Designed primarily for advanced undergraduate and beginning graduate students
